# Your Website Awaits: The 30-Minute Launch Plan

Thousands of people want to get online but feel overwhelmed before they even begin. This guide changes that. We've broken the entire process into four clear, beginner-friendly steps – so you can go from zero to a live website in just 30 minutes.

## Step-by-Step

Simple, actionable instructions from start to finish

## 30 Minutes

That's all it takes to have a live website online

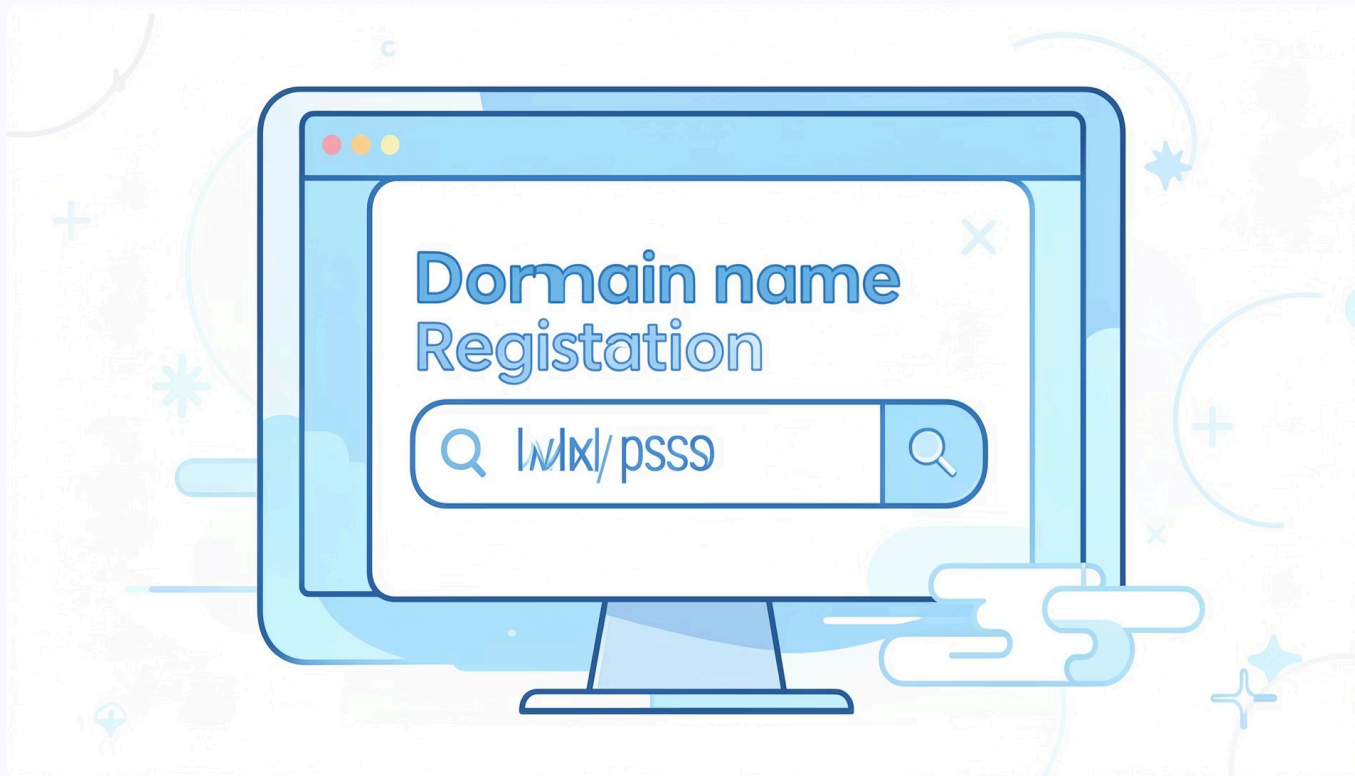

## Beginner Friendly

No coding, no tech experience required whatsoever

# Step 1: Claim Your Digital Address

DOMAIN NAME

Your **domain name** is your website's unique address on the internet – like `YourAwesomeSite.com`. It's the first impression visitors get, so make it count.

→ **Keep it short & memorable**

Aim for under 15 characters.  
Easy to spell, easy to share.

→ **Make it relevant**

Choose something that reflects your brand, business, or topic.

→ **Check availability**

Use your hosting provider's search tool to find and register your domain instantly.

# Step 2: Your Website's Home – Web Hosting

## WEB HOSTING

Web hosting is the service that stores your website's files and makes them accessible to visitors around the world – 24/7. Think of it as renting space on the internet for your site.

### Special Offer

Get a **FREE domain name** when you sign up for an annual hosting plan. That's your web address – included at no extra cost!

### What to look for in a host:

- **Reliability** – 99.9% uptime guarantee
- **Speed** – Fast load times for better user experience
- **Support** – 24/7 customer service when you need it
- **One-click WordPress** – Easy setup built right in
- **Free domain** – Included with annual plans

💡 Includes a FREE domain name for your first year with a 12-month plan.

# Step 3: Install WordPress – Your Powerhouse Platform

## 100% Free

WordPress is open-source and completely free to use forever

## User Friendly

No coding needed – manage everything through a visual dashboard

## Endlessly Flexible

Thousands of plugins and themes to customize your site your way

## One-Click Install

Most hosts offer instant WordPress installation – done in seconds

In your hosting control panel (cPanel), look for the **WordPress installer** icon. Click it, enter your site name, and you're ready to go!

# Step 4: Build Your Foundation – WordPress Setup

## BASIC CONFIGURATION

Once WordPress is installed, these three setup steps get your site looking professional and ready for visitors – all without writing a single line of code.

# Step 5: Launch Day – Your Website is LIVE! 🎉

You've done it! Your website is officially live and accessible to anyone in the world. Now it's time to share it.

## 📱 Share on Social Media

Post your new URL on Instagram, Facebook, LinkedIn, and Twitter to announce your launch.

## ✉️ Email Your Network

Send a quick email to friends, family, and colleagues letting them know you're online.

## 🔍 Set Up Google Search Console

Help Google discover and index your new site so people can find you in search results.
